October 23, 2003
1:30 PM to 3:30 PM

Tippecanoe County Extension Office

1. Introductions
2. Review of meeting minutes
3. Update on 1st notice
4. Final two topics on Full body contact designation issue
 - Implementation of risk levels for Primary Contact designation
 - Review and discussion of two options
 - A. Establish certain waterbodies to have 8/1000 risk level such as beaches and lakes, establish the rest of the waterbodies to have 10/1000 risk level, and establish public process for changing risk level
 - B. Establish all waterbodies to have 8/1000 risk level, and establish public process for changing risk level
 - Secondary contact designation criteria
 - Review and discussion of two options
 - A. Establish category 1.c. in Primary Contact designation utilizing 14/1000 risk level with 95% confidence level
 - B. Establish secondary contact designation criteria of 14/1000 risk level with 95% confidence level
5. Discussion of Issue 3 and 5 in workplan¹
 - Issue 3: Should application of the *E.coli* criteria be the same throughout the state?
 - Issue 5: *E.coli*, Options for daily max, monthly average and/or monthly percentage
6. Next Meeting
6. Adjourn

¹ After internal discussion, it was recommended that it would be beneficial to discuss issues 3 and 5 together.
